TRENDERS

Expressive, stylish, modern, incredibly masculine, charismatic and very much interesting. He fascinates and intrigues, being magnetically attractive. Here we can see a genuine, contemporary man. It is his portrait that has been traced by the stylists of Trendy Hair Fashion on the occasion of creating the latest men collection. Fancy haircuts, crazy and daring stylizations, combinations of various hair lengths and textures- a real man is not afraid to experiment; neither does he express any doubts about long hair being a genuine man trait. The timeless classics inspired by freshness going hand by hand with the avant-garde. Therefore he is simultaneously a refined stockbroker with perfectly short haircut and- when looked at from the different perspective- own daring alter ego with a mass of uncontrollable wavy hair. The Trendy Hair Fashion collection clearly shows that the mark of a stylish, absolute man is not only a perfectly cut suit but also an intriguing hair do.
